

PRESERVE WISCONSIN'S "DO NOT CALL LIST"! I enjoy having my home in peace and quiet now that annoying and rude telemarketers cannot continually call my home or cell phone. Please preserve our rights as U.S. citizens to have peace from unwanted and unwarranted calls from telemarketers. If a business wishes to contact me - they can write me and deliver their message via the U.S. Postal Service.

I am writing to request that the FCC and Congress discontinue efforts to replace Wisconsin's Do Not Call List Law. As a citizen and voter, I do not want companies to telemarket former customers after cancellation of services. In addition, I do not want to allow a company or any of its affiliates to call me after I purchase their product.

As a citizen of the United States, we should all have the freedom to elect not to be disturbed in our homes and businesses by telemarketers. "No Soliciting"!
